REVIEW OF MARKETS FINANCIAL AND COMMBRCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, March 2.—The result of o-day's trading was irregular net changes, some of the specialties show-ng advances, while most of the standto-day's trading was irregular net changes, some of the specialties showing advances, while most of the standard shares were fractionally lower. The activity in the initial and final trading, with dullness a large part of the day, was a counterpart of the dealings, with dullness a large part of the day, was a counterpart of the dealings, with dullness a large part of the day, was a counterpart of the dealings, weak in the final dealings, whereas on those other days the closing activity was marked by strength. The specialties and the general market improved considerably in the early dealings in sympathy with the Coalers, which were strong on continued talk of the proposed deal, but subsequently worked lower. The Fower stocks were lifted from time to time, particularly People's Gas and Brooklyn Transit, which made net gains of about two points each. Metropolitan Street Railway and Third Avenue gained 6½ and 7 points respectively. Much interest centered in the St. Paul dividend. When it was announced that the regular disbursements would be made, some who expected an increased return sold and the Grangers generally eased off. Sugar and Pacific Mail were strong features in the list, the latter on talk of improved earnings. There seemed a disposition for Boston banks to recall currency from New York, the premium of Boston exchange on New York being 10@15 cents. The fact that the New York sub-treasury will to-morrow draw on the Clearing House for \$6,000,000, a part of the Central Pacific settlement money, some bankers considered did not warrant any expectation of money stringency, and there was no appearance of it in to-day's call money market.

There was a brisk demand in to-day's bond market for the semi-speculative issues, which generally ruled at improved prices. Offerings of the gilt edge issues were light, with transactions at marked advances over previous figures. Total sales, \$3,350,000.

United States 3's advanced ½c. in the bid price.

The total sales of stocks were 619,000 shares.

The total sales of stocks were 619,000

New York, March 9.—Standard Oil closed at \$4.77@4.78.

The Cotton Markets.

NEW YORK COTTON MARKET. New York, March 9.—The opening of he cotton market was characterized by

the cotton market was characterized by some irregularity; near months declined 162 points, while distant months were unchanged to 2 points higher. Wall street orders made their appearance later, and as they were for considerable lots, the market promptly steadled up and shorts undertook to cover with the result of moving prices two to four points above the low at figures. The special demand from Wall street was soon withdrawn, however, and the market commenced to sag again. Throughout the session the remote deliveries maintained a firm relation to the general list on an investment demand, with sellers scarce.

Owing to contradictory statements re-

amount of long cotton for sale ind the basis of 6.30 for August contex. Nearly all commission houses selling orders for realizing on long racts. Yesterday this class of cotwas generally limited at or above for August, Limits to-day were in a cases reduced 5 to 7 points, but market was not prepared to about particular quantity of long on. Yet there was no great present of for something more tangible a has yet come in sight regarding intentions of planters. More attenwas paid to that feature than to question of receipts, although a limany traders here expect to see movement increase considerably a better weather. In the atternoone was some selling on this idea, the market showed a fairly steady crione, with the tone finally quiet, steady, with prices one point higher lower.

NOTICE TO MARINERS.
Norfolk, Va., March 9,

1. Captain Nicholson, of the Merchants' and Miners' steamship Essex, reports that on March 8th instant, at 6 p. m., he passed three spars, about ten feet above water, bearing N.E.½E. (magnetic) from Barnegat, distance eight miles, in twelve fathoms of water. Apparently a sunken coal barge. Very dangerous to navigation.

2. On March 9th instant, at 9:45 p. m., passed proper position of Cape Charles lightship. Ship could not be seen, evidently off her station. Weather was clear.

R. O. BITLER.

(No. 35 of 1839.)

Wisconsin-Sturgeon Bay Canal Light Station-Notice is hereby given that, on or about March 17, 1839, a light of the third order, flashing alternately red and white, interval between flashes to seconds, will be established in the tower recently erected on the northerly side of the entrance to Sturgeon Bay Canal from the Harbor of Refuge, westerly side of the northerly part of Lake Michigan.

from the Harbor of Refuge, westerly side of the northerly part of Lake Michigan.

The focal plane of the light will be 107 feet above mean lake level, and the light may be seen 18½ miles in clear weather, the observer's eye 15 feet above the water.

The tower is a brown, cylindrical metal shaft, surmounted by a cylindrical watch room of larger diameter, carrying a lantern deck and lantern painted black. The tower stands about 100 feet nertheasterly from the present keeper's dwelling.

The approximate geographical position of the tower, as taken from Chart No. 55 (Lake Michigan Coast Chart No. 10, of the United States Survey of the Northern and Northwestern Lakes, is: Latitude, North, 44 degrees 45 minutes (45 seconds).

Longitude, West, 87 degrees 18 minutes (46 seconds).

By order of the Lighthouse Board, FRANCIS J. HIGGINSON.

Rear Admiral, U. S. Navy, chairman.
